

ASIGEST

INTERNATIONAL INSURANCES & REINSURANCES BROKER

SINCE 1992

ASIGEST GROUP

● OUR STORY

- Asigest Broker S.p.a. was founded in 1992 in Biella to meet the insurance needs of the local business community. Thanks to more than 80 professionals and its staff present in 6 countries, Asigest Broker S.p.a. is today an insurance broker able to assist clients in managing their risk and insurance needs, wherever its business is located.
- To provide an even more efficient and widespread service, Asigest Broker is a member of UNISON BROKERS, a network of international brokers present in more than 100 countries with more than 3500 qualified professionals at the service of the customer. In compliance with the regulations and laws of the various countries, Asigest Broker is committed to having different and dedicated professional structures in order to support the internationalisation of its clients even in the emerging countries of North Africa.

CORPORATE MISSION

We strive to create value and long term mutually beneficial relationships through experienced and knowledgeable employees furnishing tailor made insurance and risk management solutions.

- We work with major national and international companies in the market;
- We manage and cover the risk of client's business through structured tailor made insurance programs;
- **We protect the interests of the client in compliance with the rules of professional ethics;**
- We provide the necessary technical and management support;
- We provide appropriate administrative support;
- We are certified for quality *ISO 9001:2015*

ASIGEST SERVICES

● CLAIMS SERVICE

Our customers can count on thirty years of experience in the sector of our staff, who provide punctual and correct management at every stage of the claim until the final settlement.

Our strengths are:

- Competence.
- Availability.
- Highest integrity.
- Consolidated knowledge of the the insurance market and of the expert network.

● INTERNATIONAL SERVICE

We support our customers in their internalisation processes, standardising and managing their coverages in relation to the different needs and regulations of the various countries.

- International programme centralised (non-admitted).
- coverage on freedom to provide Services (FOS).
- Local policies "controlled" by the parent company.

● REINSURANCE

Thanks to a dedicated and specialised team, we work in reinsurance, in particular to cover risks that cannot be insurable in the direct market:

- Political risks.
- Optional placements
- Aviation
- Energy
- Fronting

ADVISOR

● RISK MANAGEMENT

Risk management is a combination of organised systems, processes and procedures that identify, assess and mitigate risks with the aim of protecting the organisation, its strategies and objectives.

An effective and efficient risk management system plays a significant role in reducing exposures to potential adverse events.

Each organisation adopts different models of Risk Management (ERM).

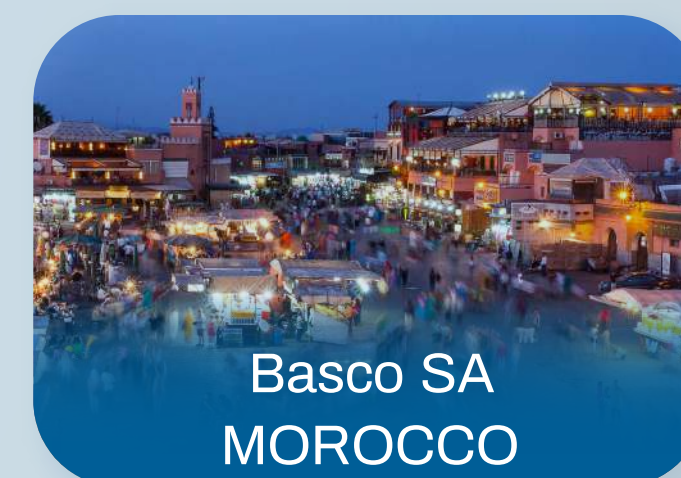

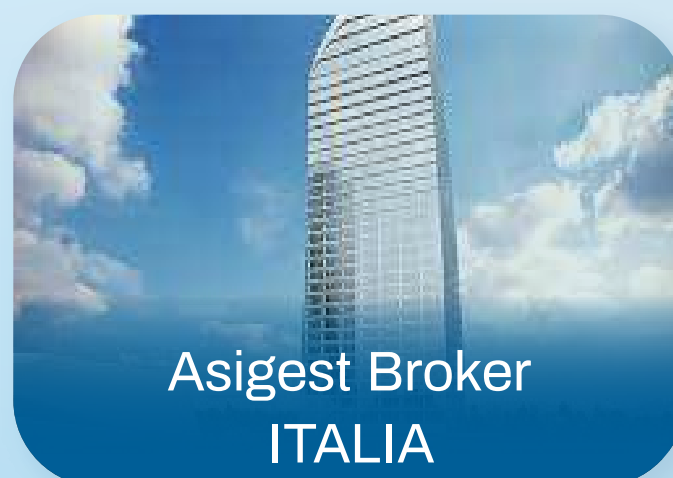

Our company is inspired by and agrees with the "Risk Management Standards" of F.E.R.M.A. (FEDERATION OF EUROPEAN RISK MANAGEMENT ASSOCIATIONS)

In partnership and collaboration with Asigset Advisor
